

The **ULTIMATE** **TENDER LIFT SOLUTION!**

Freedom Lift®

CARRY YOUR DINGHY IN STYLE... LAUNCH WITH EASE

"I wanted a lift that would launch my tender in just 15 seconds at the push of a button."

"I needed a lift that would let me board from my swim platform, holding my tender steady while keeping my feet dry."

"I wanted a lift that would mount directly to the transom, hiding under the swim platform without ruining the lines of my boat."

"I wanted easily Removable Lift Arms making the lift completely invisible when not in use."

"I found it at last - thank you
FreedomLift®!"

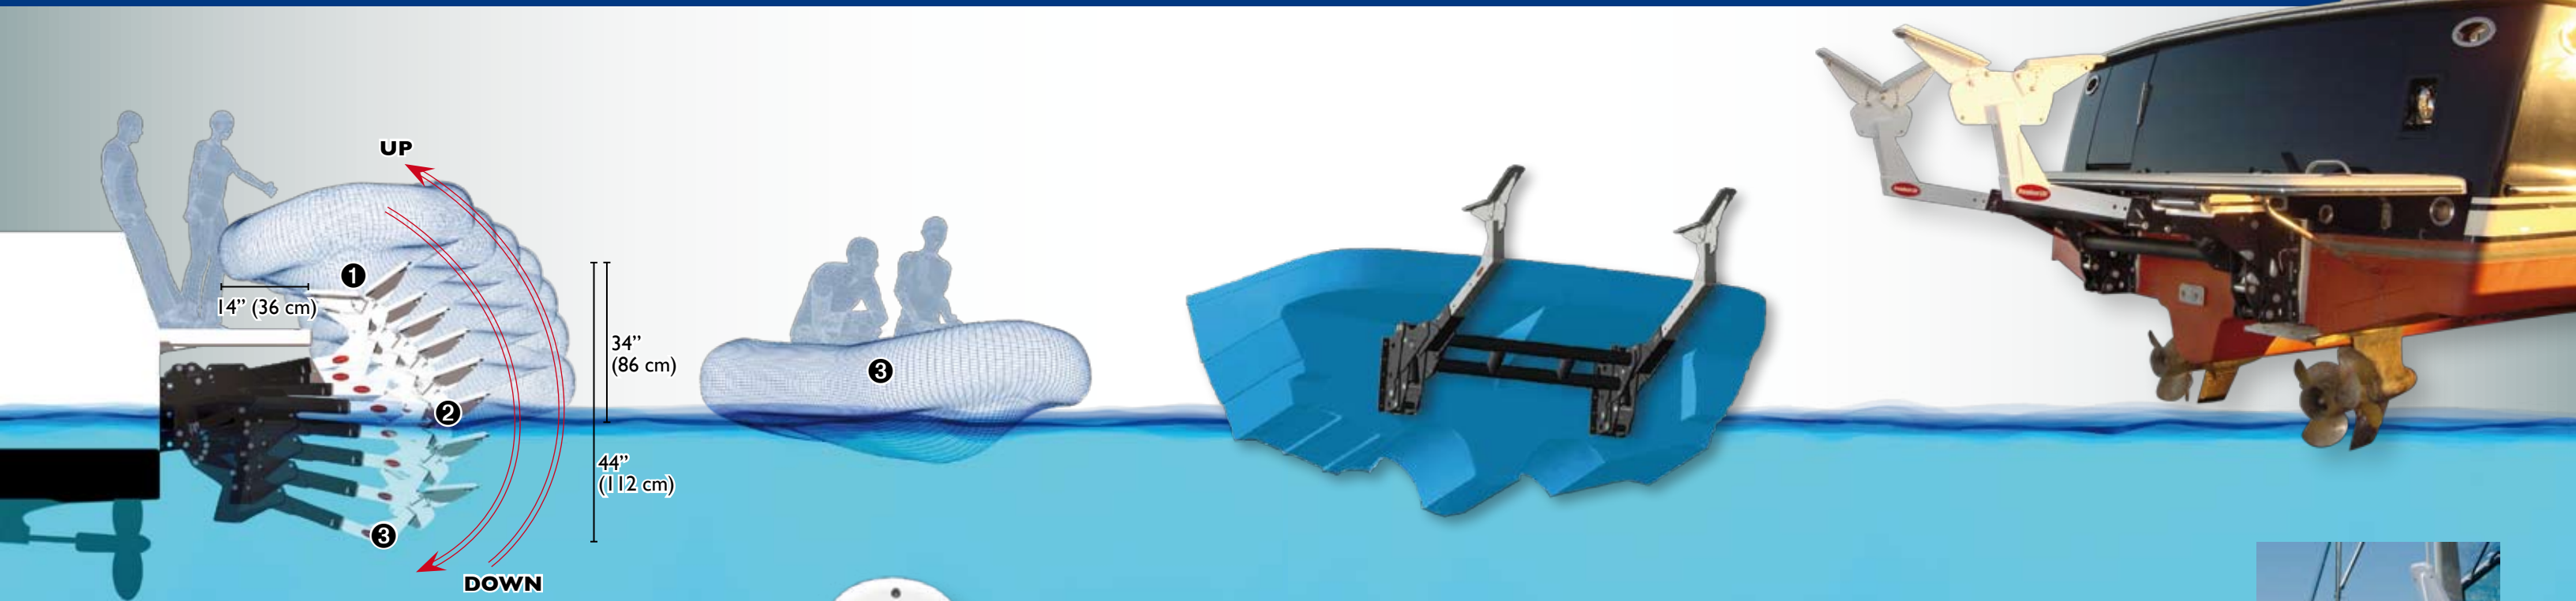

Enjoy the Freedom to...

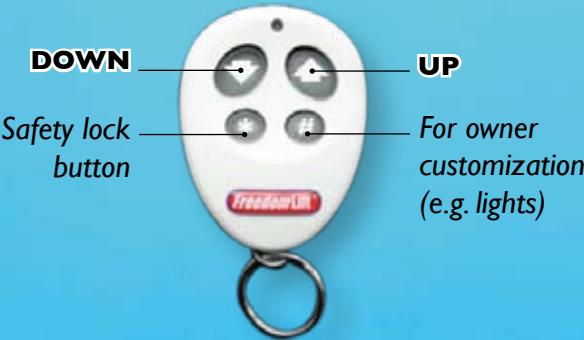

- Transport and use your tender when and where you want - with just the touch of a button!
- Operate your yacht without the hindrance of bulky, cumbersome and unsightly lift parts.
- Remove the Lift Arms when not carrying your tender.
- Have more fun and work less!

HOW IT WORKS

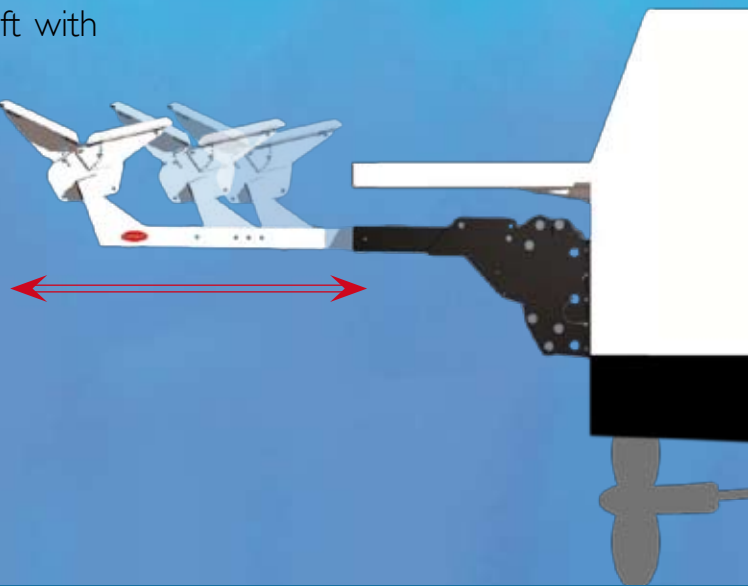

- ① Press the “DOWN” button to lower the tender.
- ② Board the tender while it’s still held in place by the Lift Arms.
- ③ Lower the lift the rest of the way so the tender is free to launch.

The **FreedomLift®** mounts on your transom, under the swim platform, enabling full use of the platform. In the raised position, your tender will be 34” (86 cm) above the waterline and retracted 14” (36 cm) over the platform.

The **FreedomLift®** is the ONLY lift with easily Removable Lift Arms.

Sealed 12 or 24 volt Hydraulic Power Unit with Certified Ignition Protection.

SPECIFICATIONS

The **FreedomLift®** is manufactured with the finest quality parts - strong, lightweight ½" (13 mm) marine-grade alloy and 316 stainless steel hardware, a proprietary 4 valve Hydraulic Power Unit system with environmentally safe fluid, and wireless remote (waterproof) control operation.

The two hydraulic lift assemblies are interconnected by a tubular cross member assembly, ensuring the integrity of the lift and providing smooth, uniform movement of both arms despite any uneven weight distribution of your tender.

NEW Auto-Lock System

316 Stainless Steel Mounting Hardware

Wireless Remote Control operation with 2 waterproof transmitters.

DUAL Hydraulic Cylinders with thermoplastic hoses and 316 stainless steel fittings (twice as strong as single cylinder systems)

Custom Composite Bushings

Four (4) stainless steel Tie Down Straps (2 Boat Buckle & 2 Ratchet) with attachment points on Lift Arms

Custom Removable Lift Arms with Adjustable Bunks to accommodate virtually any tender or PWC

Easily **REMOVABLE** Lift Arms only 25 lbs. (11 kg) each!
